me: howdy
me: if you can think of any features you'd like to see in a suite of software for bloggers, let me know soon
me: you'll get attribution for any we use
me: just keep it in the back of your mind
me: the emphasis is on the means of shifting information from blogger to blogger such that the most important is conveyed properly such that it reaches the most people
me: the end goal, as I mentioned, is to create a union of bloggers that would confront the MSM and force it to carry our output from time to time

me: Obama allegedly had yet to explain
me: (Harvard law journal, etc.; the one in which I called them and verified that such works were published anonymously)
me: it would be swell if you could perhaps think through any more attacks on me that you might be inclined to make in the future
me: more importantly
me: If you think the project I've mentioned is worthwhile
me: please look past the fact that Charles Johnson is involved
me: he's really not particularly crazy
me: compared to, say, Jeff Goldstein
